

# Alice Springs to Darwin Railway Safety

## Type 1 - Crossing Sign

Drivers need to:

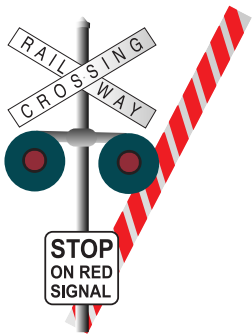

- Stop at the white stop line
- Look and listen for trains
- Proceed with caution if all clear

## Type 2 - Crossing Sign, Flashing Lights and Warning Bells

Drivers need to:

- Stop at the white stop line when flashing lights and bells are operating
- Look and listen for trains
- Wait for train to pass and lights and bells to cease operating
- Proceed with caution when all clear

## Type 3 - Crossing Sign, Flashing Lights, Boom gate and Warning Bells

Drivers need to:

- Stop at the white stop line when boom gate is lowered and flashing lights and bells are operating
- Look and listen for trains
- Wait for train to pass, boom gate to lift and lights and bells to cease operating
- Proceed with caution

## Type 4 - Grade Separated Crossing, Highway over Railway

- Drivers should proceed across overpass
- No stopping is permitted on overpass at any time

**CAUTION TO THE GENERAL PUBLIC, MOTORISTS AND PEDESTRIANS.**  
The railway corridor for the Alice Springs to Darwin railway is a RESTRICTED SITE.  
UNAUTHORISED ACCESS IS STRICTLY PROHIBITED.  
PENALTIES OF UP TO \$11,000 MAY APPLY FOR OFFENDERS. TRAINS ARE OPERATING IN THIS AREA. PLEASE OBSERVE ALL SAFETY AND CROSSING SIGNS AND DRIVE CAREFULLY.
